

# Microsoft Windows Server 2008 (Enterprise Administrator)

at ACE Computer Training Center, where it is all about Excellence in Education!

**Pre-Requisite:** PC Technician (A+) and Networking Concepts (N+) or equivalent knowledge.

**Description:** This course prepares you to become a Windows 2008 Network Administrator. It also prepares you for Windows 2008 Certification exams.

## Course Benefits

Microsoft Windows Server 2008 is the most advanced Windows Server operating system yet, designed to power the next generation of networks, applications, and Web services. With Windows Server 2008 one can develop, deliver, and manage rich user experiences and applications, provide a highly secure network infrastructure, and increase technological efficiency and value within one's organization.

## Who Should Attend

This course is for those who are interested in getting entry level jobs as network administrator using MS Server 2008/2003 and Windows XP/Vista Operating System. This course also helps you to prepare for Microsoft Certified IT Professional (MCITP) Enterprise Administrator Exam
